ANDERSON, S. C., SUNDAY MORNING, JUNE 21, 1914.

PRICE FIVE CENTS

\$5.00 PER ANNUM

## THREE YOUNG MEN PUT ON ROCKPILE

Convicted Before Mayor of Williamston for Stealing Automobiles and Sent Here.

Three young men, scarcely more than boys, were yesterday put on the Anderson county chalingang to serve terms for larceny. The young men were sent to this city from Williamston, having been given a hearing before Mayor Vance Cooley in that place, and all convicted. At the request of Mayor Cooley the young men were kept in the Anderson county jail until they had an opportunity to secure funds with which to pay their fines, but being unsuccessful in this they were yesterday sent to the chalingang by Sheriff Ashley.

Grady Vermillion, 22 years of age, Tom Vermillion, 15 years of age and Lloyd Bradley, 16 years of age, were arrested by the Williamston officials a few nights ago on a charge of stealing overcoats, raincoats, over shoes and a revolver from an automobile which had carried some Anderson people to a dance in Williamston.

When searched all the missing articles were found on the boys' persons and accordingly Mayor Cooley imposed sentence of \$100 or 60 days on Grady Vermillion, who was carrying the pistol when arrested, the other two young men drew sentences of \$25 or 30 days each.

It is said that there have been a number of thefts perpetrated in Williamston of late and the officials are determined that it shall be stamped out.

### In Her New Place.

"How are you getting on at your new place?" remarked a lady of a girl whom she had recommended for a situation. "Very well, thank you," answered the girl. "I am glad to hear it," said the lady. "Your employer is a very nice person, and you cannot do too much for her." "I don't mean to ma'am," was the innocent reply.

### Not a Humorist.

"He's an extraordinary fellow, you know; he'd kill his own father in order to make a good joke." "Then there's nothing to worry about; his father will die an old man."—Le Sourire.

## TODAY LONGEST DAY IN THE YEAR

It is the Summer Solstice When The Sun is at Its Greatest Distance from Equator

Anderson people will have little excuse to plead to their various ministers if they fail to go to church today. If otherwise they will be hard put to find excuses for failing to do anything that is required of them today because they will not be able to plead that threadbare excuse about not having time. The explanation is that they will have more time on their hands today than any day during the year because this is the longest day of the year.

The sun will rise at 4.34 a. m., and will not set until 7.27 p. m., making the day 14 hours and fifty minutes long.

This is the summer solstice, which means the time when the sun is at its greatest distance in the north from the equator. There are two solstices each year—the summer and winter. The former, when the sun seems to enter the tropic of cancer, is on June 21, the longest day; the latter solstice is when the sun enters the tropic of capricorn, on December 22, the shortest day of the year. This is only to be understood as applying to the northern hemisphere, however, as in the southern the sun's entrance into capricorn makes the summer solstice, and into cancer the winter solstice.

### World's Darkest Moment.

The darkest moment is said to be just before dawn. This is now discovered not to be so. The darkest moment, relatively speaking, is when the noonday sun shines. Then it is that living things on the earth are blinded by the dazzle of the sun and fail to recognize the light that never falls out in space.

### Campaign Stories.

It is distasteful for me to go into print to deny campaign stories that are being circulated but the report is being circulated that if I am elected mayor I will fill the city hall offices with members of my family. I wish to again deny this. I have one son

Group of portion of survivors of Co. G, 2nd Battalion, S. C. Reserves, attending the United Confederate Veterans' Reunion at Anderson, S. C., May 5th, 1914.

Standing, from left—J. A. Brock, J. J. Robinson, J. L. Wiles, J. T. C. Jones, Samuel McCrary, S. L. Boleman, M. C. Smith.

Sitting, from left—B. L. Kay, G. W. Yeargin, A. M. Whaley, B. F. Gassaway, J. J. Price, J. T. Adams, J. N. Willingham.

on the police force, but had nothing to do with putting him there, and would not favor any others of my family holding any official position in the city government should I be elected mayor.

J. M. PAYNE.

**First English Concertina.**  
The first English concertina was made in 1829, but there was a German concertina long before that time. Mozart (who seems to have written for every instrument in existence in his day, including barrel organs, mechanical clockwork, etc.) wrote an adagio in C major 2-4 time for the concertina in the year 1779, and also an adagio and rondo for concertina, flute, oboe, viola, and cello in 1790 or 1791.

### NOT AT CONVENTION

Senator Smith Repudiates the Charge of Haskellism.

Orangeburg Times.  
Senator Smith answered briefly the charge of Haskellism, and said that he would not refer to it again. "I was not at the Haskell convention. The only way they could have gotten my name was when I passed through Columbia on my way to George's station, now St. George, to see the woman I afterward married. I have a letter in my possession which bears me out in this. It is necessary only for me to give my word. When the time comes that my word is worthless and I have to substantiate that, then I'll resign from the United States senate, so help me God."

### TO TAKE HIS DEGREE

Prof. G. W. Chambers Has Gone to Chicago University.

Prof. G. W. Chambers left today for Chicago University, where he will stay for the remainder of the summer. He will take a course in manual training and school supervision.

He expects to take his degree of Ph. D. also, this summer.

### Real Meaning of Leisure.

"Leisure," says Deacon W. C. Palmer, "is no time to loaf. It's a time to do those things you've been wanting to do."

### FOR COMMISSIONER

I hereby announce myself a candi-

date for Commissioner from District No. 2, comprising Pendleton, Rock Mills, Fork and Centerville townships. Subject to the rules of the democratic primary.

JOHN R. CULBERSON.

### Tomato Juice for Stains.

Tomato juice is said to be successful in many cases in removing ink-stains from white materials, such as handkerchiefs, muslin frills, etc. It must, however, be done as soon as possible after the mishap occurred. A clean piece of blotting paper should be laid under the stain, and a slice of raw, ripe tomato rubbed over the surface, fresh pieces of blotting paper being substituted until the ink spot has vanished.

## TOWNVILLE LOST A GOOD CITIZEN

Joseph A. Burgess Passed Away Early Yesterday Morning—Well Known Here

Joseph A. Burgess was well known in Anderson and people living here will be saddened by news of his death, which occurred at his home near Townville yesterday morning. Mr. Burgess was well known in all sections of the county.

He was born on May 15, 1836 and was therefore 78 years of age at the time of his death. He was a gallant soldier in the Confederate army during the war between the states and served with distinction under General Hampton and General Butler.

Mr. Burgess had been married three times, his first wife being Miss Nancy Jane McClain. Next he married Miss Nancy Cox and his last wife was Miss Sarah Sheriff. He is survived by one brother, Griffin Burgess, who lives in the Piercetown section.

The funeral services over Mr. Burgess will be held at Townville this afternoon, conducted by Rev. W. S. Myers and Rev. W. B. Hawkins and interment will take place in the Townville cemetery.

### Chance for Grannie.

A little English boy wrote to his grandmother from his boarding school, in time for her birthday. The letter ran thus: "Dear Grannie: I want to send you a birthday present, but I haven't any money. So if you will send me the money you always give me for Christmas now, I'll buy you something nice with it. I'm thinking of a pair of pistols a boy here will sell cheap or a gramophone that another boy has. I could use them until I come home."

### Plan Big Engineering Feat.

In the Chilean Andes there is a lake 10,000 feet up in the mountains, which is prevented only by a granite wall a few feet thick from devastating the valley below. In order to avert the disaster engineers are draining the water by a tunnel and expect to supply electrical current and light to all the valley cities through the water power which will be developed.

# DRINK Chero-Cola STIMULATING, REFRESHING!

"As Cool and Sweet and Clean as a Breeze From the Blue Ridge."

**Chero-Cola**  
THERE'S NONE SO GOOD

For that hot, "stuffy," "sticky," "no-count" Feeling.

Cools—  
Refreshes—  
Stimulates.

IN ICED BOTTLES ANYWHERE — 5c

A delightful flavor all its own!

Look for the **Chero-Cola** Label

BOTTLED BY  
**CHERO-COLA BOTTLING CO.**  
Anderson, S. C.

Insist on Chero-Cola

## Some Interesting Details of Our Plant The Process of Bottle Washing and Rinsing.

All empty bottles go through, in automatic revolving pockets, a large steam heated soaker, filled with a solution of caustic soda and water, sufficient time to clean the bottles and destroy any germs. From there they are inverted on automatic rapid revolving bristle brushes, which thoroughly brushes the inside of each bottle and at the same time streams of clear water under full pressure are shot up into the bottles; then they pass, with neck downward, into automatic cup conveyers, and are rinsed six times before they reach the bottling machine.

### WATER—SYRUPS—CROWNS

We use City water, passing first through one of the best filters to the carbonater, thence through pressure hose to bottling machine.

Syrups are tripled strained into porcelain lined containers, and from thence conveyed through closed pipe to bottling machine.

We use only NEW CROWNS; throw away the used ones—don't return them to us. We do not use second hand Crowns.

Floors are concreted in and outside, and flushed with water daily.

The most fastidious consumers who visit our bottling plant will satisfy themselves that our beverages are clean, pure and wholesome.

There is no admission fee to our up-to-date and modern equipped bottling plant. We would be glad to have every dealer and consumer pay us a visit, and let us show you through one of the most sanitary soft drink bottling plants in this part of the South.
